VOL. XXVI, NO. 65 GAINESVILLE, FLORIDA, FRIDAY, APRIL 23, 1909 TEN CENTS A WEEK

SENATE PASSES STATE-WIDE PROHIBITION AMENDMENT 24 TO 7

TALLAHASSEE, April 22, 4:30 p. m.—Special—After a session lasting four and a half hours, the Senate this afternoon passed the Constitutional Amendment prohibiting the manufacture and sale of intoxicating liquors in the State of Florida by a vote of 24 to 7 as follows: Yeas—President Hudson, Adkins, Baker of Twentieth, Baker of Twenty-ninth, Broome, Crill, Cone, Cottrell, Davis, Dayton, Flournoy, Girardeau, Humphries, Johnson, Leggett, Massey, McCreary, McLeod, McMullen, Miller, Sloan, West, Williams, Withers. Nays—Beard, Buckman, Harris, Henderson, Hosford, Sams, Zim; Cook not voting. Senator Buckman against and Senators McMullen and Broome for were the principal speakers on respective sides of the question. The Senate Chamber was crowded during the session, most of the specetators being ladies, and the temperance people made the capitol resound with shouts and songs when the vote was announced. The measure now goes to the House, where a determined fight will be made against it.

JUDGE CARTER'S SPEECH ON COMMISSION REPORT

Explains Findings of Body and Gives Interesting Account of Gov. Jennings' Work.

TALLAHASSEE, April 22.—In one of the most eloquent and forceful addresses ever heard by the Lower House of the Florida Legislature, Judge Syd L. Carter, representative from Alachua county, told of the acts and doings of the Trustees of the Internal Improvement Fund since its inception by an act of the Legislature in 1885, as given in a voluminous report, embracing a large amount of testimony as well as documentary evidence, made recently by the special commission elected for the purpose by the Legislature of 1907, of which he is chairman. Several times during his address the speaker was interrupted by applause.

It is to be deduced from Judge Carter's remarks that the commission has found that the trust was coupled with the obligation to drain and reclaim the lands. That the land granted to the railroad companies was only the residuary interest therein; that at divers times during the existence of the trust there was wasteful mismanagement; that many of the acts, both in the early and later administrations were inexcusable and that the improvident expenditure of the trust funds under the guise of payments for legal services to favored attorneys are deserving of the highest censure.

The report on its face shows that the research was an exhaustive one. There was one difference of opinion of the members of the commission. This was when they reached that portion of the report that deals with the legal contention of the trustees' general counsel, Former Governor Jennings.

Judge Carter differed as to the law and filed a dissenting opinion on that point.

Judge Carter's Address.

Judge Carter's address to the House was in part as follows:

"No one can read the whole record and escape the conclusion that reckless disregard to the people's interests has characterized the sheer favoritism shown the attorney for the trustees for the past two years. Employed on a salary of $5,000 a year, he looks longingly at the I. I. cake and the trustees hand him out another $5,000 slice in the shape of agent's commission, and as there is still some cake left in the trustees' pantry the trustees hand him out other generous slices labeled 'stenographer,' typewriter,' etc., until the whole for two years amounts to $27,000. Well did this son of a horse leech know that there is oftimes more blood in the body than mantles in the cheek, and that there is oftimes more perquisites in a position than is represented by the salary.

"But finding that the cake was dwindling to insignificant proportions and that the new keepers of the pantry would carry the key, he generously tells the trustees that, the pasture having given out, they may turn someone else in the field and, like the celebrated soldier of fortune, Sir Dugald Dalgelly, he enlists under the banner of the purchaser. Having milked the trustees dry, he turns to the Bolles Company that has just freshened. Some hypnotic influence enabled this Illinois importation to fasten upon the I. I. teat and no amount of thunder could make him turn loose until there was a change of administration.

"The recent transaction between the trustees and their salaried counsel does not meet with the approval of this commission. We do not wish to make any rash comments, but merely state that considered from every possible point of view it is wholly and absolutely inexcusable. A mere statement of what the record discloses is sufficient to sustain the above statement.

"W. S. Jennings was employed by the board at an annual salary of $5,000. During the two years preceding the termination of his connection with the board he was paid for salary $10,000. In addition he was paid commissions as an agent for the same lands, towit, the swamp and overflowed lands, and for expenses, stenographer, etc., an amount sufficient to swell the grand total to $22,000, and then he graciously resigned and took employment under one of the intending purchasers.

"By what hypnotic power the Illinois importation was able to so influence the trustees is one of the mysteries surrounding this trust fund that I have been unable to fathom.

"The conduct of the trustees and their favored counsel is simply inexcusable, and no amount of sophistry can hide its glaring impropriety."

The report of the commission was continued as a special order for 3 p. m. Monday.

A Busy Day.

A large number of new bills were introduced Wednesday, some of which went to third reading, under waiver of rules, and were passed.

Of State-wide interest was a resolution introduced by Mr. Chase of Duval county, and adopted, urging the Florida representatives in Congress to use all honorable means to persuade the President not to appoint any negroes to federal positions in the State, and to begin the good work of decapitating the head of the internal revenue department in Florida and appointing as a successor a good white man. The introduction of the resolution was followed by a round of unstinted applause, and within the twinkling of an eye its adoption had been effected.

An impressive feature of the day's session of both houses was the joint assemblage of the House and Senate at high noon to elect jointly a United States Senator.

Pursuant to a resolution offered on the preceding day, the House elected five committee clerks to take the place of the nineteen previously appointed.

Mr. MacWilliams of St. Johns nominated Ben. F. Cone, who has been filling the position of clerk to the judiciary committee B. Nomination seconded by a half dozen.

The House proceeded to ballot, resulting in the election of Ben. F. Cone, Miss Gurney, Mrs. Poole, Miss Mathis and Mr. Smith.

Motion by Mr. MacWilliams of St. Johns that all records save the statement that the following clerks were elected be expunged from the journal. Carried.

The Senate.

Opposition was brought to bear upon the McMullen bill relieving insurance companies organized in Florida from paying the State 2 per cent of the gross premiums on policies paid in the State in the Senate Wednesday morning. It is rather probable that the bill will be defeated.

Senator Harris of the Twenty-fourth led the opposition to the measure. He objected to the loss of revenue and also attacked the constitutionality of the measure. The bill was defended by Senator McMullen, but did not come to a vote, as the Senate went into joint session with the House before the question was called.

GOVERNMENT WILL NOT PROSECUTE BEEF TRUST

Action of Attorney-General Is Attracting Criticism From Roosevelt Administration Forces.

WASHINGTON, April 22.—The beef trust is not to be prosecuted, Attorney-General Wickersham having addressed a letter to the beef trust firms saying that no public service will be served by pressing the suits, because he is convinced the trust did not intend to do wrong.

The action of the new Attorney-General, who was formerly personal attorney for J. P. Morgan and partner of Brother Henry Taft, of Wall street, New York, is attracting criticism a plenty from the Roosevelt forces. It is declared it was the intention of the Roosevelte administration to proceed with the prosecution.

The circumstances in the beef trust cases are worth relating. Under Roosevelt, James R. Garfield was Secretary of Commerce and Labor and he gathered a vast amount of evidence against the beef trust. This was turned over to U. S. District Attorney Sims of Chicago, and presented to the Federal grand jury for indictment.

The work of preparing and presenting the evidence had not been concluded when Roosevelt went out of office on March 4. Now Wickersham has informed the packers they will not be prosecuted.

The beef trust prosecution was the biggest rebate case pending when Roosevelt left office. Carried to its logical conclusion it would have meant the trial of a number of prominent and rich Chicago men interested in the packing business—a trial in which conviction would have meant fines and jail.

Wickersham's critics argue that the grand jury in Chicago and United States District Attorney Sims in charge of the case would be the best judges of the evidence which has been heard during the last three months. Lawyers are not wanting who look upon the action of Attorney-General Wickersham as a clear usurpation of authority. In any case, it is declared, it is a straining of the law to protect the members of the beef trust from threatened criminal prosecutions.

The reason for his action, as given by Attorney-General Wickersham, is his belief that members of the beef trust had no intent to violate the law. He says:

"It does not clearly appear that your company intended to use this method of computing the cost value of its product as a device to affect the charges of the carriers transporting such product, and the department does not believe that any public service would be rendered by making at this time a test case of past transactions."

Exception is taken to the Attorney-General's assertion that the cases in mention are "test" cases. It is asserted that Morris & Co., and three other large packers of Chicago, were prosecuted under indictment almost exactly simflar to these now being

Tornado Leaves Death and Destruction in Its Path

CLEVELAND, O., April 22.—Probably four deaths, scores of persons injured and hundreds of thousands of dollars worth of damage marked the path of a tornado which passed across the northern part of Ohio at noon yesterday.

The storm consumed only five minutes in passing a given point, but during that brief period it was as dark as night, hail battered in windows, lightning set fire to hundreds of buildings, one-fifth of an inch of rain fell, and the wind which reached a velocity of sixty-six miles an hour, razed buildings and chimneys, tore off roofs, laid low many telegraph and telephone and demoralized traffic upon the steam and electric railways.

In neighboring towns considerable damage was done. Ten dwellings were reported to have been blown to the ground in the southwestern part of the city. Many homes were burned, as the fire department could not attend to all of the calls.

An unidentified young woman is reported to have been thrown into a pond at Wade Park by the force of the wind and drowned. Three men are reported to have been killed by falling walls in the flats.

St. Stanislaus Catholic church was demolished. The loss there was upwards of $100,000.

Grand Lodge of I. O. O. F. In Session at DeLand

DELAND, April 22.—The fifty-fourth Grand Lodge of Odd Fellows of Florida is in session here. The members, delegates and grand lodge officers met in the hall of Magnolia Lodge yesterday and marched in a body to the First Baptist church, which was thrown open for the occasion, and a welcome reception was tendered the visitors. The exercises consisted of music by Bushnell's orchestra, invocation, by Rev. W. A. Nelson, vocal solo by Mrs. Edward L. Powe, address of welcome on behalf of the city by Dr. Lincoln Hulley, president of Stetson University, by request of Mayor Wood. Rev. Dr. J. Blocker, of Magnolia Lodge, extended the glad hand on behalf of the local lodge. Vocal music by violin and piano followed, and a response to the addresses of welcome was made by Grand Master B. C. Abernathy, of Orlando. Dr. Nelson who pronounced the benediction was taken ill on returning to his home and died within an hour.

The Grand Lodge convened immediately after the services at the church. Many new members, who were present for the first time, were given the Grand Lodge degree, and committees were appointed.

When the Grand Lodge reconvened, Past Grand Representative General M. A. Rainey, of Iowa, was introduced and received with honors.

Reports of committees took up most of the afternoon. One of the pleasing features was the presentation to Past Grand Master Lester, of Tampa, a Past Grand Master's collar. Mr. Lester wore the testimonial of the esteem of his fellows with pride and dignity. The presentation address was made by Past Grand Master J. W. White of Jacksonville.

The Grand Lodge constitution was this afternoon changed so as to give the Rebekah State Assembly full control of its affairs, subject to appeal to the Grand Lodge and the Sovereign Grand Lodge.

The sessions of the Grand Lodge are presided over by Grand Master B. C. Abernathy of Orlando.

'TEREST INCREASES IN GREAT CONTEST

NEW ENTRIES POURING IN FROM ALL SECTIONS OF COUNTY.

Call for Your Votes When Trading and Vote for Your Favorite Candidate.

The third day of the Co-Operative Contest proved interesting and shows that the candidates are commencing to get busy in order to be among the "nead ones" in the long list of candidates.

The Sun is still receiving nominations from the rural districts both by 'phone and letter, and we are pleased to see such lively interest taken in the matter. The out-of-town contestants realize that they now have an opportunity to win the handsome prizes.

By reference to the advertisement it will be seen that four new names have been added to the list, The Eddins Manufacturing Company, The Brown House, Standard Fertilizer Company and N. Francisca, the Banana Man, so you can now purchase anything you want in Gainesville and secure votes. Paste the list of firms in your hat and instruct your friends about them when they visit the city.

Another good way to rush your lead is to secure subscriptions, job work and other business for The Sun. It will be seen by reference to the ad. that you can devote your spare time very profitably in this way.

There were seventeen new entries in the contest yesterday, and it is expected that there will be over one hundred candidates in the race within the next week.

All merchants advertised in the contest are now provided with coupons, and in every place they have a ballot box arranged so that you may mark and deposit your votes before leaving the store.

Following is the vote as canvassed yesterday afternoon at 4 o'clock:

Delightful Birthday Party.

Little Miss Myrtle McDonald entertained in honor of her eighth birthday, at the home of her parents, Mr. and Mrs. C. W. McDonald, 506 E. church, Wednesday afternoon from 4 to 6 o'clock.

About twenty-five of little Myrtle's friends were present and the afternoon was passed in a most enjoyable manner, as only little ones can. Her little friends showered her with beautiful presents.

At 5 o'clock, led by the hostess, the little ones marched into the large and pretty dining-room, where they were served with strawberry cream and lady fingers. Miss Ruth McDonald and Master Major Doughtrey served the refreshments. After indulging in appropriate games until 6 o'clock, the guests departed, wishing the clever little hostess many happy returns of the day.

Returned to Newberry.

Deputy Sheriff Wynne of Newberry arrived in the city Thursday for the purpose of carrying back to that point Elvea Carr, the negro woman who is charged with stabbing another woman by the name of Minerva. She will be given a preliminary hearing before Justice Carter at that place today. The woman who was wounded has sufficiently recovered to be present at the hearing.

OWEN MAY SOON KNOW HIS FATE

PAPERS IN CASE PREPARED AND FORWARDED TO GOVERNOR.

This Would Be the First Legal White Hanging Ever Executed in Alachua County.

R. H. Owen, the white man now confined in the county jail and who has been sentenced to hang, will soon know his fate.

All papers in the case have been prepared by Clerk of the Court Wienges and forwarded to the Governor at Tallahassee, who will investigate them and set the day upon which the man shall die according to the sentence imposed upon him by Judge Wills at the special term of court.

The wife of Owen is endeavoring to get up a petition, but she has been seen around the streets but very little, and it is said that but very few have signed the paper. Many have never seen it and from present indications the petition will never leave this city unless others take the matter up and assist the woman in her trouble.

The usual procedure will be gone through with at Tallahassee, the Governor issuing the death warrant and setting the time that the man is to be hung.

Should Sheriff Ramsey have to perform the act of hanging Owen, it will be the first legal white hanging ever to occur here. This record causes many to believe that someone will intervene in the man's behalf and endeavor to get the sentence commuted to life-imprisonment.

Several of the ministers have called upon the doomed man, but as his mind seems very shallow, they obtain little satisfaction. Owen is an illiterate person and it will apparently require a great deal of time to teach him right from wrong.

REV. L. D. GEIGER DEAD.

Passed Away at His Home at Apopka Tuesday Night.

Rev. L. D. Geiger died last night at his home in Apopka. Mr. Geiger was for several years pastor of the Ocala Baptist church, and made many lasting friends in this city. He was secretary of the State Board of Missions, the most important office of that denomination in the State, and was also one of the most gifted and popular preachers in Florida. His death will be a great blow to his friends and the Baptist church.

Mr. Geiger was born in Levy county about fifty years ago. He is survived by a wife and several children.—Ocala Star, 21st.

JONESVILLE NOTES.

JONESVILLE, April 22.—J. W. Hamilton went to Gainesville one day last week.

Mr. and Mrs. L. C. Smith and children visited Mrs. Hamilton Sunday.

R. P. Miller, Jr., who has been sick for several days, is better to the delight of his friends.

Misses Stella and Irene Miller visited Misses Lizzie and Cena Hamilton Tuesday afternoon.

Our Sunday school has been sleeping since the church burned, but we want to try and awaken it on next Sunday afternoon at 3:30 o'clock. Let us all try to meet at the new Jonesville school house. Our literature was burned, so we will have to order more.

PLANS COMPLETED FOR THE NEW DEPOT

SPECIFICATIONS FORWARDED TO COMMISSION.

If Approved by This Body Work Will Be Started on Improvement at Once.

The plans and specifications of the new Seaboard passenger depot have been completed, approved by the local interests and forwarded to the Railroad Commission at Tallahassee for their approval.

If these plans meet with the approval of this board, it will mean that work is to commence on this important improvement as soon as the material can be placed on the ground.

A large part of it is already here, having been placed nearly a year, or since the question was first agitated.

The citizens generally and traveling public in particular will hail the new improvement with delight, as every convenience will be arranged in the new quarters.

Among the necessaries that will be included will be lavatories and toilets, and rooms will be arranged for the general convenience of the traveling public.

Another improvement to be embraced in the new depot will be that all baggage will be handled by trucks. The passenger cars will stop at the same place under a well-built shed, making it unnecessary to be in the weather during a rain, and a shed will also be extended over the space where hacks usually stand.

PROBABLE NEW SERVICE FOR THE SEABOARD

TRAIN NO. 243 MAY BE RUN AS FAR AS BRONSON.

Would Greatly Improve the Service for All the Citizens Along This Railway.

There is a probability that train No. 243 of the Seaboard, which is now stopped here, will be run as far as Bronson.

If the promoters behind this proposition are successful, it will mean a great deal for the citizens residing along this line, as it will not only afford better traveling facilities for them but will give a double daily service from Bronson to Jacksonville.

Parties residing as far south as Bronson will be enabled to take breakfast at home, come to Gainesville and spend a few hours trading and return home in time for dinner with but little expense. The afternoon service would also prove very advantageous to them, as it would give them about three hours to do their trading here.

While we have a board of trade, very few of the members are active, and The Sun would suggest that the business men get together and make some effort to secure this service at once. It would prove a paying proposition for the road and at the same time help Gainesville in a business way.

THE NEWS FROM MELROSE.

Winter Visitors Depart for North. Personal Notes of Interest.

MELROSE, April 22.—Mr. and Mrs. R. Barnett of Blackshear, Ga., are visiting Mrs. Morris.

At a called meeting of Chapter No. 27, O. E. S., Miss C. McRae and Miss Sadie L. Mullin were elected delegates to the Grand Chapter meeting at Jacksonville today.

The motor boat of B. Chamberlain has arrved here. It is 30 feet long, eight foot beam, with canopy top and seven and a half horse-power gasoline engine. Its new owner expects to spend a good deal of his time on the lake hereafter.

Rev. Barr left Monday for Leesburg to assist at a revival meeting held by Rev. Hice. He expects to be absent for a week.

A large crowd was at the public dock on Saturday morning to bid goodbye to Mr. and Mrs. J. N. Cole and Mr. and Mrs. J. Ackroyd of Utica, N. Y. Few people have made more friends in one winter than all of these charming people, who came to Melrose for the first time last fall. Mr. Cole has bought the fine residence and grove of Mrs. Caldwell. It is one of the most desirable homes on the lake and the grove, for its size, one of the most profitable ones in town; besides the large number of various citrus trees, there are Japanese persimmons, guavas, figs and bananas and about thirty of Dr. Curtis' famous pepper-shell pecan trees. The house itself is surrounded by beautiful tall palmetto palms, oleanders, magnolias and camphor trees, while lovely roses grow on trellises against the spacious verandas. Mr. Cole has already made some improvements at his boat house and later on proposes to bulkhead his entire waterfront. The people of Melrose extend to Mr. and Mrs. Cole their heartiest welcome as future winter residents and look forward to their early return next fall and hope they will bring Mr. and Mrs. Ackroyd with them.

P. Lee has returned from the Atlanta Dental College for the summer.

J. H. Pearsall of Westfield, N. J., is the guest of B. Chamberlain for about two weeks.

What "MARION HARLAND" thinks of "Nature's Gift from the Sunny South"

New York,
December 15, 1908

The N. K. Fairbank Company,

Dear Sirs:

Many years ago I discontinued the use of lard in my kitchen and substituted for it -- as an experiment -- COTTOLENE, then comparatively a new product.

Since my first trial of it I can truly say that it has given complete satisfaction, whether it is used alone, as "shortening", or in combination with butter in pastry, biscuits, etc., or in frying; it has never disappointed me.

I wish it were in my power to install this pure vegetable product in the esteem of my fellow housewives in place of the gross, and often diseased, animal fats

I rarely recommend any proprietary article in print, however good I may think it, but after many years use has proved to my household and myself the excellence of COTTOLENE, I feel justified in departing from the self-imposed rule. I honestly believe it to be the very best thing of its kind ever offered to the American housekeeper, and I am glad of the opportunity to make my conviction public..

Yours truly,

Marion Harland

NOTE—"MARION HARLAND" is well known as one of the foremost cooking experts in the United States. She is the author of the famous "Marion Harland Cook Book," and her articles on culinary subjects are widely read and highly prized. Her high standing and long experience with COTTOLENE make this endorsement particularly strong and convincing, and it is doubly gratifying because of the fact that it came entirely unsolicited.

REAL ESTATE CHANGES.

Only a Small List of Papers Were Filed on Tuesday.

Only a small number of papers were filed for record on Tuesday compared to the business done during the past few weeks in the realty line, but many sales of importance are now brewing which it is thought will be closed within the next few days.

Following is the list as taken from the deed books in the clerk's office: N. R. Carter, Jr., to Stringfellow & Oliver; J. A. Williams and wife to T. R. Hunt; S. F. Jackson and W. L. NEW YORK ACTRESS

Parisian Sage Made Her Hair Grow Two Inches in Seven Months.

Of all the women in the world, an actress most ardently desires beautiful and luxuriant hair. And when her hair begins to fall out she becomes anxious, and intelligently seeks for a preparation that will stop the havoc, grow new hair and give life and beauty to the old.

Joan Sawyer, a clever, handsome actress, has this to say of Parisian Sage:

"To whom it may concern: Have tried most every hair tonic available, and at last Parisian Sage was recommended to me, and, as a last recourse, used it to my entire satisfaction. My hair has stopped falling, dandruff stopped, and my hair has grown two inches in the last seven months. It is the best and only sure cure for thin and short hair I know."—Joan Sawyer, 59 East 59th street, New York City.

Parisian Sage is the scientific hair restorer that has created such a sensation since its introduction into America about two years ago. It is such a quick-acting prescription that every agent who sells it will guarantee it to cure dandruff, stop falling hair, splitting hair, and itching scalp in two weeks, or money back.

It is the most delightful hair dressing in the world and is highly praised by society women and actresses who have luxuriant and glorious hair.

It will turn harsh, lusterless hair into soft, silky and luxuriant hair in a few days.

W. M. Johnson is the agent for Parisian Sage in Gainesville and he sells it for 50 cents a large bottle, the largest bottle for the price on the market.

The weather of the past few days has turned the thoughts of many to the haunts of recreation.

Rev. C. C. Carroll has tendered his resignation as pastor of the First Baptist church at Ocala, to take effect in June. He will remove to Owensboro, Ky.

Tampa sent a delegation to Tallahassee to oppose the prohibition bill and St. Petersburg sent one to urge its passage, which would indicate that county division is not the only thing the two cities are "at outs" about.

The Fort Myers Press says "many people wonder why Jacksonville makes such rapid strides forward," to which The Pensacola Journal adds, "It is funny that the old gal doesn't get dizzy and stumble sometimes—considering, you know."

B. B. Tatum has disposed of his interests in the Miami Printing Company, publishers of The Miami Metropolis, to A. J. Bendle, a retired capitalist. S. B. Dean will continue to manage the affairs of the business, as well as edit the paper, hence its policy will not be changed in any way.

With the approach of May Day some of the European governments, and especially that of France, are showing increasing uneasiness. In some past years the day has been marked by rioting and incipient rebellion, and as France has so recently passed through a severe labor crisis it is but natural that the approach of the day on which labor usually makes its demands upon employers should cause some anxiety.

Its against the law in some States to trim women's hats with bird feathers. It isn't against the law in Florida, but it is against the law to purchase feathers from Seminole Indians, who kill plumage birds in the Everglades and sell their feathers for a mere song in this city, says The Miami Metropolis. It will be much cheaper some day for the women to pile garden truck on their hats and leave the feathers in the birds God intended them to adorn.

The formation of a Society for Prevention of Cruelty to Animals in Gainesville is a most worthy move, and should have the hearty co-operation of everyone in its work. The death recently of Geo. T. Angell, editor of Our Dumb Animals, removed one of the best friends of the dumb brute this country has ever known, and the memory of "the man who spoke for those who cannot speak for themselves" will ever be cherished by the people of the civilized world.

Some scientific genius invented a machine called a "galvanic psychometer." A great deal was expected of it in the way of reforming morals, because it was claimed that its application to any individual giving testimony would infallibly show if the testifier was speaking truth or falsehood. But now it it said that the "lie detector" is no good, and therefore all the hopes that had been formed as to the testimony on oil and other corporation cases are dashed to pieces.

PEAT AS FUEL.

Peat is partly decomposed vegetable matter that has formed either where the ground is saturated with water most of the time or where it is permanently covered with water. It is the dark-colored or nearly black soil found in bogs and swamps, commonly known as muck, although technically a distinction is made between peat and muck, the latter name being restricted to those forms of swamp deposits that contain too much mineral matter to burn freely. Dry peat may be very fibrous and light-colored or compact and structureless and dark-brown or black. It is usually somewhat lighter in color when dry than when freshly dug. When wet it contains as a rule from 80 to 90 per cent or more of water; that is, a short ton of wet peat rarely contains more than 300 pounds of dry peat and may yield as little as 100 pounds. In the wet condition it is entirely noncombustible, and the various processes by which it is prepared for use or market consist principally of methods for ridding it of water quickly and cheaply and for increasing its fuel efficiency and transportability.

The great peat deposits that are widely scattered in the northern part of the United States have at various times aroused strong public interest. In the winter of 1902-3, for instance, when the strike of the coal miners in the anthracite region of Pennsylvania brought the country to realize that it was to a large extent dependent on these miners and their employers for an important part of its fuel supply, a number of writers familiar with the conditions in the countries of Northern Europe called attention to the fact that those countries, possessing a climate much more severe than ours, were using great quantities of peat for fuel, while in this country, although material was abundant, it had only exceptionally been prepared for use and then in the crudest way. During the next few months many experimental and speculative plants were established to convert peat into fuel, but unfortunately many of these attempts were financially unsuccessful, and as the strike was soon over and coal could again be had at reasonable prices and very little peat fuel was put on the market at any price, interest in peat waned and at the present time the public is almost indifferent to it. In the few places where it can be purchased, however, it finds a ready sale and is thoroughly satisfactory for all domestic uses.

An interesting account of the nature, origin and uses of peat appears in a report by E. S. Bastin and C. A. Davis, on the peat deposits of Maine, which has just been published by the United States Geological Survey as Bulletin 376. Copies of this bulletin may be obtained free of charge by applying to the Director of the Survey at Washington, D. C.

Recently in one of our large cities a newly married couple were seized by some of their foolish friends, chained, put in a cage and driven over the streets accompanied by a crowd of shouting and laughing people. The officious friends doubtless considered it rare fun, but every decent person must regard such actions as coarse horseplay, humiliating to the victims and a disgrace to those who indulge in them. One can easily imagine the feelings of any self-respecting couple subjected to treatment that must outrage their sense of modesty. What there is in the marriage state to call forth such foolish actions is beyond our comprehension. Certainly those who perpetrated them cannot have a very exalted idea of it.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free,

TILLMAN AT WHITE HOUSE.

A dispatch from Washington states that Senator Benjamin Tillman of South Carolina paid his first visit to the White House Tuesday and received a cordial greeting from President Taft. In his long official capacity the Senator never before had called upon a President and his appearance in the executive offices created a sensation.

"It's not necessary to make a nine-day wonder out of my visit to President Taft," said Mr. Tillman after his return to the capitol. "We have always been good friends and I frequently went to see him when he was Secretary of War. Whether he has inherited his office from Roosevelt or been elected by the people, there is no reason for anyone to suppose that he has inherited Roosevelt's meanness."

While at the White House Senator Tillman saw Booker T. Washington for the first time.

"I was very curious to see him," said Senator Tillman, "because it enabled me to draw my own conclusions as to the percentage of white blood there is in him. It is over one-half."

Asked what impression he formed of Washington, Mr. Tillman replied:

"Booker Washington is considered a great negro, and he has great intellectual powers. He has a Jesuitical face. If he had not been engaged with a lot of people about him I should have gone up and chatted with him. I would like to discuss the race question with Booker Washington. I would like to ask him a lot of questions."

COTTON SEED OIL TARIFF DISCUSSED

SENATOR ALDRICH EXPRESSES WILLINGNESS TO REPEAL IT.

Senator Simmons Protested—Senators Bacon and Tillman and Many Were Willing.

WASHINGTON, April 22.—In the Senate yesterday cotton seed oil was the subject of an exchange of opinion between protectionist Republicans and tariff-for-revenue Democrats. Taunting members of the minority by stating that the cotton seed oil industry of the South had appealed to him for tariff protection, Senator Aldrich suggested to Mr. Bacon that if the Senators from Georgia and other Southern States should get together in favor of placing that product on the free list as was the case when the bill passed the House of Representatives, he thought an agreement to that effect might be reached.

This suggestion had been called forth by a statement by Mr. Bacon who said if the 25 per cent ad valorem levied on importations of cotton seed oil did not produce an income he thought it should go on the free list.

Senator Simmons of North Carolina protested against such action, declaring that he was free to say that he was not in favor of placing cotton seed oil on the free list.

Stating that the importation of cotton seed oil in 1908 was 202 gallons, worth $81, and yielding revenue of $8.28, Mr. Aldrich said the tax on that article was "for protection pure and simple."

"Any pretense," declared Mr. Tillman, rising in his place and speaking in vigorous language, "that there is protection on cotton seed oil through such a duty is a humbug. Cotton seed oil producers do not want any protection at all."

Mr. Aldrich said he had been appealed to by such producers from the South and Mr. Tillman declared that he "didn't represente such people."

Mr. Money joined in a declaration that the South did not want protection on cotton seed oil.

DOING THEIR DUTY

Scores of Gainesville Readers Are Learning the Duty of the Kidneys.

To filter the blood is the kidneys' duty.

When they fail to do this the kidneys are sick.

Backache and many kidney ills follow;

Urinary trouble, diabetes.

Doan's Kidney Pills cure them all.

Gainesville people endorse our claim.

Mrs. V. E. Spence, 201 W. Arlington street, Gainesville, Fla., says: "It would be hard to describe how I suffered from a weak and aching back. At times the pains were so intense that I could not get up or down. I was also troubled by rheumatism and different parts of my body became stiff and lame. A friend finally advised me to try Doan's Kidney Pills and procuring a box, I began their use. I am glad to say that they lived up to representations, removing the pains and disposing of the rheumatism. I can honestly say that Doan's Kidney Pills did me more good than any medicine I had previously taken."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

GOVERNOR OF CONNECTICUT PASSES AWAY

HARTFORD, Conn., April 22.—Governor George Leavens Lilley died at the executive mansion, yesterday evening after battling with acute nephritis for four weeks. There were at the bedside, Mrs. George L. Lilley, the three sons, Frederick, John and Theodore Lilley, and Mrs. John A. Lilley and the attending physicians.

As soon as the news was spread abroad the fire bells of Hartford sounded the age of the dead Governor—forty-nine—and a detachment of the first company, Governor's Fort Guards, immediately was mustered to go on duty at the executive mansion.

The funeral will be held from Trinity Church, Hartford. The body will be escorted to the State capitol prior to the funeral services and lie in state in the rotunda.

Taking the Step.

It happened while a marriage was being celebrated. The bridegroom did not have the usual happy, bashful look. Instead he seemed to be profoundly unhappy and fidgeted about, standing first on one foot and then on the other.

So patent was his state of mental unquiet that the "best man" deemed it expedient to elucidate the mystery. "Hae ye lost the ring?" he solicitously inquired.

"No," answered the unhappy one with a woeful look; "the ring's safe enough, but, man, I've lost my enthusiasm."—London Scrap.

Mr. F. G. Fritts, Oneonta, N. Y., writes: "My little girl was greatly benefited by taking Foley's Orino Laxative, and I think it is the best remedy for constipation and liver trouble." Foley's Orino Laxative is best for women and children, as it is mild, pleasant and effective, and is a splendid spring medicine, as it cleanses the system and clears the complexion. J. W. McCollum & Co.

Very Little Change.

quashed. Each company was fined $15,000, and paid the fine.

This case went on appeal to the United States Supreme Court, where, without any division of the bench, the convictions were sustained. The point of criminal intent in such cases was treated by the Supreme Court in these words:

"There is a class of cases within which we think the one under consideration falls, where purposely doing a thing prohibited by the statute may amount to an offense." (Armour Packing Co. vs. the United States, 209 U. S. at page 85.)

Morris, Armour, Swift and Cudahy are all offenders. The acts for which Wickersham gives immunity were committed, in many instances, since the decision of the above-mentioned case by the Supreme Court. The packing companies concealed evidence of their transactions by their practice of keeping a secret as well as a public set of books.

"If Wickersham's action is carrying out the Roosevelt policies," declared a member of the Interstate Commerce Commission who was an admirer of Roosevelt, "deliver me from having them further carried out."

Another member of the Interstate Commerce Commission said: "It is the moral effect of this act of the Attorney-General which is most to be deplored. With an example of this kind before them it is not to be expected that prosecuting attorneys throughout the country are going to display much zeal in the preparation of inauguration of new cases. The arm of the Chicago prosecuting official, raised to do his duty, has been struck down, not by the common enemy, but by his own chief—by the new Attorney-General of the United States.

"Let no one suppose that the secret rebate has been wiped out. Hundreds of thousands of dollars are paid every month to favored shippers under various deceitful guises. The implied promise of immunity from the penal sections of the Hepburn act will be the signal for the secret rebate to renew its youthful flourish."

SURE CATARRH CURE

Brings the Forests of Pine and Eucalyptus to Your Home.

Germs cannot live when Hyomei (pronounced High-o-me) is used. You just breathe in this soothing yet most powerful antiseptic air and relief is immediate. It is exactly the same air as you would breathe in the forests of pine and eucalyptus of Australia where catarrh or consumption was never known to exist.

GO UP AHEAD.

Than See That You Stay There—You Can if You Work Hard.

Thirty years ago in a poor schoolhouse in a back district a boy at the foot of the class unexpectedly spelled a word that had passed down the entire class.

"Go up ahead," said the master, "and see that you stay there. You can if you work hard."

The boy hung his head. But the next day he did not miss a word in spelling. The brighter scholars knew every word in the lesson, hoping there might be a chance to get ahead, but there was not a single one. Dave stayed at the head. He had been an indifferent speller before, but now he knew every word.

"Dave, how do you get your lesson so well now?" said the master.

"I learn every word in the lesson and get my mother to hear me at night, then I go over them in the morning before I come to school, and I go over them at my seat before the class is called up."

"Good boy, Dave!" said the master. "That's the way to have success; always work that way and you'll do."

Dave is today the manager of a big lumber company, and he attributes his start to the words:

"Go up ahead and see that you stay there. You can if you work hard."—Genesee Courier.

DO HEARTS BREAK?

Human Nature the Same Despite Modern Improvements.

Broken hearts, so the British Journal of Nursing tells us, are quite out of fashion. The disease has become obsolete, and two reasons are assigned for this. In the first place, we are told that women do not fall in love as once they did. Mere children are not encouraged to think on love and matrimony, and then women, having come to riper years and sounder judgment before they decide to marry, do not let themselves fall into that state which was supposed to produce cardiac rupture.

One ventures to express the opinion that the statement is not altogether accurate.

Human nature does not alter from one generation to another. People "fell in love" a thousand years ago; a thousand years hence they will be doing the same. But they wore their love with a difference; so will those who are to succeed us. The fact is we do not now wear our hearts on our sleeves, and we have learned that if lovers prove untrue or unworthy there are better and more dignified ways of lamenting them than souring our temers, wasting away and allowing our friends and relations to treat us as relicts.

Solomon's Bathtub.

With Chronicles as its authority, the Lumbers' Trade Journal says that the bathroom was an invention of King Solomon, who put it in use a thousand years before the Christian era. It was lawful to enter the sanctuary unless the body was perfectly clean, and for the accommodation of priests a bath was erected at the entrance to the temple. It was said of Solomon, "He made a molten sea of ten cubits from brim to brim round in compass and five cubits the height thereof, and a line of thirty cubits did compass it round about." According to the measurements, the Solomonian tub was four-five feet in circumference at the top and six and one-half feet deep. It rested on carved figures of oxen and was of solid brass cast in one piece, decorated with a floral design. Connected with it there were ten small tanks, which were used for washing the offering.

Men Who Cheat Themselves.

I have known employees actually to work harder in scheming, shirking, trying to keep from working hard in the performance of their duties, says Orison Swett Marden in Success Magazine, than they would have worked if they had tried to do their best and had given the largest, the most liberal service possible to their employers. The hardest work in the world is that which is grudgingly done. The youth who is always haggling over the question of how many dollars and cents he will sell his services for little realizes not how he is cheating himself by not looking at the larger salary he can pay himself in increasing his skill, in expanding his experience and in making himself a better, stronger, more useful man.

A Queer Battle.

A traveler in South Africa tells of a singular combat that he witnessed. He was musing one morning with his eyes on the ground when he noticed a caterpillar crawling along at a rapid pace, followed by hundreds of small ants. Being quicker in their movements, the ants would catch up with the caterpillar, and one would mount his back and bite him. Pausing, the caterpillar would turn his head and bite the ant and kill his tormentor. After slaughtering a dozen or more of his persecutors the caterpillar showed signs of fatigue. The ants made a combined attack. Betaking himself to a stalk of grass, the caterpillar climbed up tail first, followed by the ants. As one approached he seized it in his jaws and threw it off the stalk. The ants, seeing the caterpillar had too strong a position for them to overcome, resorted to strategy. They began sawing through the grass stalk. In a few moments the stalk fell, and hundreds of ants pounced upon the caterpillar. It was killed at once.

We often wonder how any person can be persuaded into taking anything but Foley's Honey and Tar for coughs, colds and lung trouble. Do not be fooled into accepting "own make" or other substitutes. The genuine contains no harmful drugs and is in a yellow package. J. W. McCollum & Co.

GAINESVILLE,

—THE—

University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

Gainesville Has:

One artist.
No saloons.
One garage.
Four hotels.
Four banks.
Four dairies.
One foundry
Water works.
Ten churches.

Two ice factories.
Six music schools.
One variety store.
One public library.
Two wagon works.
Two planing mills.
Two racket stores.
Two lumber yards.
One marble works.
Three silversmiths.
Three wood yards.
Five dental rooms
One express office.
Free mail delivery.
Four beef markets.
Eight barber shops.
Two public schools.
Two music houses.
A telephone system.
Two haberdasheries.
Two abstract offices.
Four pressing clubs.
Two machine shops.
Two bottling works.
Six boarding houses.
One Catholic church.
A military company.
Three jewelry stores.
One phosphate office.

Five dressmaking establishments.
National Odd Fellows' Sanitarium.
Three undertaking establishments.
Two of the best hotels in the interior.
Two wholesale grain and feed stores.
Two wholesale grocery establishments.
Water "that has made Gainesville famous."
The finest opera house in the State outside of Jacksonville.
A Government building soon to be erected to cost when completed $150,000.
Carpenters, masons, plasterers, painters, printers, machinists and laboring men galore.
More miles of paved streets and granolithic sidewalks than any other town in the interior of the State.
An $85,000 court house built of brick and stone—a beautiful structure—and the lawns, flower beds, shrubbery, Confederate monument, etc., surrounding it, make it a most attractive picture.

ABOUT ADVERTISING—NO. 2

The Dollar That Can't Be Spent

By Herbert Kaufman

Every dollar spent in advertising is not only a *seed* dollar which *grows a profit* for the merchant but is actually *retained* by him even *after he has paid it to the publisher.*

Advertising creates *a good will* worth the cost of the publicity.

It actually *costs nothing.* While *it uses* funds it does not *use them up.* It helps the founder of a business to grow rich and at the same time *keeps* his business from not dying when *he* does.

It eliminates the personal equation. It perpetuates confidence *in the store* and makes it possible for a merchant *to withdraw* from *business* without having the *profits* of the business *withdrawn* from *him.* It changes a *name* to an *institution*—an institution that will *survive* after the death of its builder.

It is really an *insurance policy* which costs nothing—*pays* a premium each year instead of *calling for* one, and renders it possible to change the entire personnel of a business without disturbing its prosperity.

Advertising renders the *business* stronger than the *man*—independent of his presence. It permanentizes systems of merchandising, the track of which is left for others to follow.

A business which is *not* advertised *must* rely upon the *personality* of its proprietor, and personality in business is a decreasing factor. The public *does not want to know the man* who owns the store—it isn't interested in *him,* but in his goods. When an unadvertised business is sold it is only worth as much as its *stock of goods and fixtures.* There is no good will to be paid for—*it does not exist*—it has *not* been *created.* The name over the door *means nothing* except to the limited stream of people from the immediate neighborhood, any of whom could tell you *more* about some store ten miles away which has regularly delivered its shop news to their breakfast tables.

It is as *shortsighted* for a man to build a business which *dies with his death* or ceases with his inaction as it *is unfair* for him not to provide for the *continuance of its income to his family.*
